AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-8 (canceled).

Claim 9 (Currently Amended): A method for making an electrical cable having a plurality of spaced, parallel flat conductors comprising the steps of:

- (a) providing first and second web of dielectric materials;
- (b) providing a third integral sheet of conductive material;
- (c) bonding said first and second web materials to said third integral sheet of conductive material in a face-to-face layered relationship thereby forming a bonded laminate; and
- (d) incrementally stretching said bonded laminate to separate the integral sheet of conductive material to form into a plurality of discrete spaced, parallel flat conductors.

Claim 10 (Original): The method of Claim 9, wherein said conductor comprises a metal sheet.

Claim 11 (Original): The method of Claim 9, wherein said conductor comprises a metal foil.

Claim 12 (Original): The method of Claim 9, wherein said dielectric material comprises a nonwoven.

Claim 13 (Original): The method of Claim 9, wherein said dielectric material comprises a polymer film.

Customer No. 27752

Claim 14 (Original): The method of Claim 9, wherein said dielectric material comprises PTFE.

Claim 15 (Original): The method of Claim 9, wherein said dielectric material comprises expanded PTFE.

Claim 16 (Original): The method of Claim 9, wherein said dielectric material comprises expanded microporous film.
